

Exercise 2 – 10 minutes

The Library's Contribution to Quality of Life

Your group will be assigned one quality of life topic. Working together, brainstorm ways that your library – or any library – might improve that aspect of the community's quality of life. Do not limit your ideas to supplying information about your topic; try to come up with things the library could actually do.

- ! While brainstorming, your task is to understand and appreciate each person's ideas. Please do not critique the suggestions.
