

Welcome to today's Infopeople Webinar!

Infopeople is dedicated to bringing you the best in practical library training and improving information access for the public by improving the skills of library workers. Infopeople, a grant project of the Califa Group, is supported in part by the Institute of Museum and Library Services under the provisions of the Library Services and Technology Act administered in California by the State Librarian. Why do we need to innovate?

The way we do things today is OK/ fine/good enough.

“

As a leader you may have specific goals about where you are going, but you also should be **open to new possibilities**. Why? Because we need **new answers for our changing world**. Let's face it, our world today is different from what it was 50, 20, and even 10 years ago. Our technology, culture, economics, and community life are significantly different than they used to be. And the changes are only accelerating.

Those changes present new challenges and often demand new solutions. If we know something that has worked before is likely to work again, we don't have to reinvent the wheel. But in order to find workable solutions to some new problems, we need to be open to possibilities that might not have been tried before.

Marya Axner

The Community Tool Box, Kansas University

“ Expanding access to education, learning opportunities and social connections for all is one of the great challenges of our time. It is a challenge made more urgent by the rapid transition from old industrial and service-based economic models to a new economy in which **knowledge** and **creativity** are the drivers of productivity and economic growth, and information, technology and learning are central to economic performance and prosperity. It is not only the economy but all of society that is being reshaped by these trends. Amid these changes, there are **divides** in wealth, digital inclusion and participation that threaten to widen if we as a nation do not commit to new thinking and aggressive action to provide these opportunities for all. This is **a time of great opportunity** for communities, institutions and individuals who are willing to champion **new thinking** and nurture new relationships.

10 WAYS TO FOSTER A CULTURE OF INNOVATION:

1. Include innovation in **planning** documents.
2. **Hire** people who are innovators.
3. Include innovation goals and actions in new employee **orientation**.
4. Include innovation goals and actions in performance **evaluations**.
5. Provide creativity and innovation **training**.
6. Invest in **hands-on learning**.
7. Find ways to support **collaboration**.
8. Engage in ongoing **conversations** with library users and others.
9. Encourage **play**, **experimentation**, and **risk taking**.
10. Encourage and **capture** innovative ideas.

successful brainstorming:

pay attention to:

- the time of day
- the location
- the tools
- reflection time
- time limits
- the “rules”

“rules”:

- defer judgment
- encourage wild ideas
- build on ideas of others (“yes and...”)
- stay focused
- one voice at a time
- be visual
- go for quantity

put your prototype in front of your users and get **feedback**

potential questions to ask:

- What excites you about this idea and why?
- If you could change one thing about this prototype, what would it be?
- What else would you like to improve about this idea?
- What do you NOT like about this idea?
- What do you need to hear or learn more about in order to understand this idea?
